

WAGEH PHILIP

Allied Builders and Management
Project Manager

Wageh Phillip is a seasoned construction management professional with a proven track record of overseeing complex projects from initial planning to final delivery. With extensive expertise in cost estimation, contract negotiations, and project execution, he ensures that every phase of construction is meticulously planned and executed to meet the highest industry standards.

Mr. Phillip's expertise spans pre-construction planning, budgeting, procurement, and on-site coordination. He specializes in managing large-scale commercial developments, ensuring seamless integration of structural, mechanical, and architectural elements. His ability to anticipate challenges and implement strategic solutions enables him to optimize resources, control costs, and maintain project timelines without compromising quality.

His portfolio includes major developments such as Little Ferry Plaza, a 145,000-square-foot shopping center, and

a 160,000-square-foot freezer warehouse for Bogopa Food. Through precise project scheduling, value engineering, and risk management, he successfully delivers projects that exceed client expectations.

Committed to operational excellence, Mr. Phillip fosters strong relationships with subcontractors, suppliers, and stakeholders, ensuring smooth workflow and adherence to safety and regulatory compliance. His leadership in construction management continues to drive Allied Builders & Management's reputation for delivering superior-quality projects on time and within budget.
