

MAGED METRY

Allied Builders and Management
Senior Project Manager

Maged Metry brings over 17 years of experience in construction management professional, bringing invaluable expertise in overseeing large-scale commercial and residential projects for Allied Builders. With a strategic approach to project initiation, he leads negotiations with clients, develops comprehensive cost estimates, and ensures seamless contract execution.

Leveraging his strong background in structural design, Mr. Metry possesses an in-depth understanding of construction methodologies, design specifications, and value engineering principles. He expertly manages subcontractor coordination, bid solicitation, and contract negotiations, ensuring projects remain cost-efficient and on schedule. His meticulous oversight extends to construction scheduling, risk management, and quality control.

Mr. Metry has successfully delivered a diverse portfolio of high-profile projects, including the Archangel Michael Church

in Howell, major developments along Washington Street in Hoboken, and the Fiat House—a premier 310-unit luxury apartment complex in Fort Lee, strategically positioned at the gateway to the George Washington Bridge, valued at \$70 million.

His leadership, technical acumen, and commitment to excellence drive the success of Allied

Builders, reinforcing the company's reputation for delivering high-quality, on-time, and within-budget construction solutions.
